## **NOTICE OF ALLOWANCE**

### ***Allowable Subject Matter***

1. Claims 1-3, 5-12, and 14-21 are allowed.
2. The following is an examiner's statement of reasons for allowance: The examiner notes that U.S. Patent No. 6,701,808 B2, issued to Hsieh, and supplied by the applicant in the IDS filed February 28, 2005, discloses in the embodiments illustrated in Fig. 13, a ratchet wrench having a unitary drive member mounted in the hole of the head of the wrench; a ratcheting mechanism; an annular groove in the inner periphery of the drive member; and a stop. However, Hsieh fails to provide a fastener retainer or a flange integrally formed at one of the first and second ends of the outer periphery as a unitary, unseparable component and located outside the head for manual rotation of the drive member. The examiner also notes that Pub. No. 526807 (Taiwan), also to Hsieh, discloses the provision of an outer flange at one of the first and second ends of the drive member for manual rotation of the drive member, however, Hsieh fails to disclose either a stop at one end of the drive member, or a fastener retainer. Therefore, it is the examiner's opinion that the art of record considered as a whole, alone or in combination, neither anticipates nor renders obvious the fastener retainer and the flange together in combination with the rest of the limitations in the independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
